

Seoul Expedite LOGISTICS

International Time Critical
Logistics Specialists

Introduction to SEL

Seoul Expedite Logistics (SEL)TM is an American owned and operated logistics company situated in Seoul, South Korea. We are the premier OBC logistics organization operating out of South Korea. We offer the best in market availability, communications, reliability, and execution of any company in our region. While we consistently cover all corners of South Korea, we have also expanded our coverage to many Asian countries including Japan, Singapore, Taiwan, Hong Kong, and Malaysia to name just a few.

Our team is on standby 24/7 to rapidly provide solutions into and out of Asia for your pressing logistical issue. Whether it be a single delicate prototype, or hundreds of kilograms of critical components to keep your assembly line running, we stand at the ready to expedite your delivery as fast as humanly possible. Seoul Expedite Logistics is ready around the clock to meet the time critical and precise demands of the modern OBC market.

Fast. Reliable. Always Ready.
Seoul Expedite LogisticsTM

24/7 Availability

Our team of experts are standing by around the clock and ready for your request.

Rapid Response

Our team will provide a quote/itinerary for the next available flight within minutes, and arrange pickup within an hour.

Competitive Price

All airlines and flight itineraries are scanned to provide the quickest option at the most optimal price. In our market we are the most competitively priced option.

Asia-focused

Our Asia-based couriers hold various passports and visas allowing access to various countries. SEL controls the majority of OBC shipments in and out of Korea.

Global Coverage

We are able to utilize our extended courier network across the globe, or position couriers around the world upon request.

Safe and Secure

Our On Board Couriers are fully trained and experienced, and personally accompany your shipment from pick-up to final delivery.

Live Updates

We keep you updated on the status of your shipment upon every major checkpoint.
